# Equal Sign Balance

1st Grade Math · Interactive Math · Explore & Reflect

Name: Date: Class:

## Get started

Put cubes on both sides of a balance. When both sides are worth the same, the scale is level and the equation is true. Open the tool and use it to answer each question.

## Explore

**1.** Put 5 + 3 on the left. Put 6 on the right. What must you add to the right side to balance?

**2.** Is 8 = 5 + 3 true or false?

**3.** Is 6 + 1 = 6 + 2 true or false? Which side goes down?

**4.** Find the missing number: 9 + 4 = __ + 3
