Clock Explorer

TEACHER KEY

1st Grade Math · Interactive Math · Explore & Reflect

Get started

Move the hands of a clock by hours and half hours. See the digital time and the time in words, and notice where the hour hand points. Open the tool and use it to answer each question.

Explore

1. Show 4:00. Where does the minute hand point?
   To the 12
2. Show 8:30. Where is the hour hand?
   Halfway between the 8 and the 9
3. What time is it 1 hour after 5:30?
   6:30
4. Write half past 11 as a digital time.
   11:30

5. At 2:30, where does the minute hand point?

To the 6

6. What time is it a half hour after 12:00?

12:30

Reflect

7. Reflect: Why is the hour hand between two numbers at half past?

It moves slowly to the next hour; at half past it has gone halfway.

Teacher notes

- Pair each clock with a daily event (lunch at 11:30, recess at 10:00) and ask students to set it.
- Focus on the hour hand at half past: it is between two numbers, and we say the smaller one (except between 12 and 1).
- The arrow keys move the clock a half hour at a time.

Standards: 1.MD.B.3. Accept any correct answer where several are possible, and ask students to explain with the tool’s picture.
