# Tally and Picture Graph Builder

TEACHER KEY

1st Grade Math · Interactive Math · Explore & Reflect

## Get started

Collect votes for favorite fruits, show them with tally marks, a table or a picture graph, and answer how many in all, how many more and how many fewer. Open the tool and use it to answer each question.

## Explore

1. How many votes are there in all? (Apples 4, Bananas 6, Grapes 3)
   **13**
2. How many more votes do Bananas have than Grapes?
   **3 more**
3. Which fruit has the most votes?
   **Bananas**
4. Add 2 votes to Apples. How many do Apples have now? Which fruits tie?
   **6. Apples and Bananas tie.**

# Tally and Picture Graph Builder

TEACHER KEY

1st Grade Math · Interactive Math · Explore & Reflect

## Explore more

**5.** Draw the tally marks for 7.

**One bundle of 5 (4 lines crossed by 1) and 2 more lines**

**6.** How many fewer votes do Grapes have than Bananas?

**3 fewer**

## Reflect

**7.** Reflect: Why do we cross the fifth tally mark?

**It makes bundles of 5, so we can count by fives.**

## Teacher notes

- Collect a real class vote and enter it with the class watching.
- Ask the three kinds of questions the standard names: how many in all, how many in each category, and how many more or fewer.
- Switch views without changing the votes and ask: Did anything change? (No — the same data, a different display.)

**Standards:** 1.MD.C.4. Accept any correct answer where several are possible, and ask students to explain with the tool's picture.
