Tens and Ones Builder

1st Grade Math · Interactive Math · Explore & Reflect

Name: Date: Class:

Get started

Build numbers to 120 with ten-rods and ones cubes, bundle 10 ones into a ten, break a ten apart, and compare two numbers with >, = and <. Open the tool and use it to answer each question.

Explore

1. Build 46. How many tens and how many ones?

2. Build 17 using only ones. Then bundle. What do you have now?

3. Show 32 as 2 tens and some ones. How many ones do you need?

4. Build 7 tens. What number is it?
