Picture and Bar Graph Builder

TEACHER KEY

2nd Grade Math · Interactive Math · Explore & Reflect

Get started

Enter votes for favorite sports and see them as a picture graph, a bar graph and a table. Answer put-together, take-apart and compare questions. Open the tool and use it to answer each question.

Explore

1. How many votes are there in all? (Soccer 7, Basketball 5, Tennis 4, Swimming 9)
   25
2. How many more votes does Swimming have than Tennis?
   5 more
3. How many more votes does Soccer have than Basketball?
   2 more
4. If 4 more students vote for Tennis, how many votes will Tennis have?
   8

Explore more

5. Which sport has the shortest bar?

Tennis

6. How many students voted for Soccer or Basketball?

12

Reflect

7. Reflect: How are a picture graph and a bar graph alike?

Both show the same counts. Each picture or each unit of a bar stands for 1 vote.

Teacher notes

- Collect class data first, then enter it together.
- Ask put-together (Soccer or Basketball), take-apart and compare questions.
- Have students make the graph on paper and check it against the tool.

Standards: 2.MD.D.10. Accept any correct answer where several are possible, and ask students to explain with the tool's picture.
