Break-Apart Arrays

3rd Grade Math · Interactive Math · Explore & Reflect

Name: Date: Class:

Get started

Split an array of unit squares into two smaller arrays to find hard facts from easier ones. Rotate the array to see the commutative property. Open the tool and use it to answer each question.

Explore

1. Break 6 × 7 into 6 × 5 + 6 × 2. Find each part and the total.

2. Break 8 × 6 into two equal parts. Write the equation.

3. Use a 5s fact to find 4 × 9.

4. Rotate 7 × 4. What is 4 × 7?
