Expression Builder

5th Grade Math · Interactive Math · Explore & Reflect

Name: _____ Date: _____ Class: _____

Get started

Type or tap to build numerical expressions with parentheses, brackets and braces, then watch them evaluated one step at a time. Open the tool and use it to answer each question.

Explore

1. Evaluate $4 + 3 \times 2$. What is done first?

2. Evaluate $(4 + 3) \times 2$.

3. Evaluate $2 \times [5 + (6 - 2)]$. List the steps.

4. Evaluate $\{20 - [3 \times (4 - 1)]\} \div 11$.

5. Put parentheses in $3 + 5 \times 2$ to make it equal 16.
