Get started

Split rectangles into partial products to multiply two-digit numbers, then switch to fractions and multiply parts of a whole. Open the tool and use it to answer each question.

Explore

1. Show 36 × 24. List the four partial products.

2. What is 36 × 24?

3. Show 45 × 13. Which partial product is the largest?

4. Explain why 48 × 25 is not just 40 × 20 + 8 × 5.

5. Switch to fractions. Show $\frac{2}{3} \times \frac{3}{4}$. What fraction is purple?
